San Jose, California | hungle2805@gmail.com | (408)-230-3354

EDUCATION

De Anza College, Cupertino, CA

Associate Degree for Transfer, Computer Science — June 2025

Relevant courses: Multivariable Calculus, Data Structure and Algorithms, Modern Physics, Thermodynamics.

University of California, Los Angeles, Los Angeles, CA

B.S Computer Science and Engineering — June 2027

EXPERIENCES

NASA Europa Clipper ICONS

La Cañada Flintridge, CA

Software Engineering Intern

May 2025 - Present

- Developed **Java** modules for **CADMUS** mission planning tool, enhancing Europa Clipper scheduling based on predicted radio interference
- Wrote **Python** scripts using **NASA's SPICE** toolkit to analyze spacecraft trajectories and orbital geometry, generating predictive models for Jovian radio bursts
- Built end-to-end data pipelines leveraging **Python**, **Java**, and scientific libraries to automate conversion of ephemeris data into mission-planning inputs

NCAS: NASA Community College Aerospace Scholars

San Jose, CA

Software Specialist

June 2024 - March 2025

- Developed and implemented software solutions for rovers to autonomously navigate the lunar surface and detect lava tubes as part of a project focused on potential human habitation.
- Designed and refined algorithms to optimize rover pathfinding and enhance data collection, improving the precision of lunar surface mapping.
- Conducted analysis of mission data to evaluate the habitability and structural feasibility of lunar lava tubes for future human settlement.

Pacific Link Foundation

Ho Chi Minh City, Viet Nam & San Jose, CA

Organizing committee/Intern

June 2023- August 2024

- Created an interactive calculator using **Python** and **JavaScript** that reached over **20,000 users**, enabling students in remote areas of Vietnam to estimate their post-high school expenses and plan for higher education.
 - Optimized and modernized the Foundation's website using **HTML**, **CSS**, and **Bootstrap**, improving responsiveness, visual appeal, and user experience across devices.
 - Contributed 35+ hours a week to provide English and career workshops for students that are in underserved communities around Viet Nam
-

EMPLOYMENT

Synopsys

Santa Clara, CA

Technical Assistant

November 2024 - January 2025

- Provided technical support for Synopsys EDA software, resolving issues to ensure smooth operations for semiconductor design teams.
 - Assisted in software installations and troubleshooting, minimizing downtime for engineering workflows.
-

SKILLS AND INTERESTS

- **Technical:** Adobe Premiere Pro, Adobe Illustrator, Microsoft Powerpoint, Microsoft Excel, Microsoft Word, JavaScript, Adobe InDesign, Adobe Photoshop, Java, Python, C++, SQL
- **Language:** Vietnamese (native), English
- **Interests:** Badminton, chess, puzzles, graphic design, travel, coding, content creation
